

I recently found k-love while driving in my car to work. Their music puts me in a positive frame of mind and cheers me up. Traffic has not bothered me since I started listening to this station. I have spread the news about this station and have found out that several of my friends and co-workers had already found it. I told them we need to spread the word about this station. One day last week we had some bad weather and I could not find the station in the morning, at lunch or on my way home. I was very upset that I was only getting static and I did not know what to do. The next day it was back on the air. What a relief! I can smile again while I am driving and I wish all the cars around me were tuned in and we could all smile and nod good day to each other. Please do not take away this good thing in our community.
